Word form the founder.

Shipmates Woodworking has been making oar plaques for departing personal for over 10 years. Our oars are hand crafted with premium wood such as Walnut, Ash, Red Oak, and White Oak. Each oar is unique with respect to color, curl, and character of the wood. All oars are finished with a high gloss polyurethane finish. To add more of a personalized touch we provide many variations to customize your oar. Challenge coins, company/unit emblems and decorative touches to the handle with fancy work can be added to the oar.

Our handcrafted oars are created when an order is placed. This is done to provide you with the opportunity to customize a unique treasure. Each oar comes with a branch coin (see page 10), a brass plaque that measures 3 inch by 4 inch with your selected wording, and a wrapped handle with your choice of colors (see page 10). A unique oar can take an average of 15 days to create. Your order is shipped via 3 day UPS ground. Other shipping methods for quicker delivery are also available.

Solid Oars

Solid oars are selected the type of wood to be used for the oar. The selected wood will be handpicked from our inventory of hard woods. Examples are shown below. You can chose from any type of wood from Purple Hart, to the most exotic such as Teak, Olive, Apple, or Avocado. All oars measure 32 inch tall and 6 ¾ inch wide and ¾inch thick.

Maple

\$50.00
